PROJECTS

Waste Wise: An Innovative IoT-Powered Solution for Waste Segregation | Capstone 2025

Frontend Developer

- Conceptualized and developed an IoT solution aimed at improving waste management practices.
- Designed a user-friendly interface for better user engagement with our capstone project.
- Built the app using React + Vite to create and optimize software applications supporting the project goals.
- Implemented feedback from users to refine features and enhance usability.
- Presented project findings to faculty, receiving positive evaluations for innovation and effectiveness.

MCenter 2026

Full-Stack Web Developer

- Contributed alongside senior developers in developing a hospital management system for a big hospital in Dumaguete.
- Applied Next.js and Laravel in creating the system to ensure smooth performance.
- Designed some of the pages that were used in the production of the web app.
- Implemented feedback from users to refine features and enhance usability.

Tribu Pakaras 2026

Full-Stack Web Developer

- Developed a full-stack e-commerce web application using Laravel, Vue.js, and Inertia.js, supporting product listings, shopping cart, and secure user authentication.
- Applied Laravel with vue.js and inertia.js to ensure smooth performance.
- Tested application features for cross-browser compatibility and optimized performance.
- Engaged in iterative design processes, incorporating user feedback to enhance the application.

GameOn: Mobile app for gamers 2024

Full-Stack Developer

- Created a collaborative mobile platform for gamers to connect and share experiences.
- Applied react native and django to develop an interactive and functional user interface.
- Utilized critical thinking skills to troubleshoot technical issues during development.
- Created the project's coding standards and documentation for clarity and maintainability.

EXPERIENCE

Tech Hive Inc. January 2026 - Present

Full-Stack Web and Mobile Developer, Carmen, Cagayan De Oro City, Philippines

- Developed and maintained full-stack web applications for real-world clients as part of a professional internship.
- Built MCenter, a hospital management system for a large hospital in Dumaguete, contributing to both frontend and backend development.
- Developed Triibu Pakaras, a full-stack e-commerce web application for a clothing brand in Davao using Laravel, Vue.js, and Inertia.js
- Collaborated with the development team to deliver client-ready solutions within project timelines.
- Applied best practices in code quality, testing, and version control across multiple concurrent projects.
- Delivered 2 client ready web apps within a 4 months internship period.

Outlier June 2025 - December 2025

AI Data Entry Intern

- Followed detailed instructions with precision to ensure data accuracy.
- Provided accurate data entry and management, contributing to effective information flow.
- Worked collaboratively within a team to enhance productivity and project outcomes.
- Demonstrated adaptability through quick learning of new processes and technologies.
- Contributed to team meetings by sharing insights to improve data handling practices.

Chocolate Ganash March 2022 - June 2023

Customer Service Assistant and Catering Service Cagayan de Oro City, Misamis Oriental

- Managed time effectively to ensure tasks were completed within tight deadlines.
- Delivered exceptional customer service by following instructions closely and meeting client expectations.
- Operated independently with minimal supervision, demonstrating reliability and trustworthiness.
- Collaborated with team members to streamline operations and enhance service delivery.
- Developed problem-solving skills by addressing customer inquiries and resolving issues efficiently.
