PROJECTS

Waste Wise: An Innovative IoT-Powered Solution for Waste Segregation 2025

Frontend Developer

- Conceptualized and developed an IoT solution aimed at improving waste management practices.
- Collaborated with peers to design user-friendly interfaces for better user engagement.
- Utilized programming skills to create and optimize software applications supporting the project goals.
- Implemented feedback from users to refine features and enhance usability.
- Presented project findings to faculty, receiving positive evaluations for innovation and effectiveness.

Tribu Pakaras 2026

Web Developer

- Developed a full-stack e-commerce web application using Laravel, Vue.js, and Inertia.js, supporting product listings, shopping cart, and secure user authentication.
- Applied JavaScript and other programming languages to ensure smooth performance.
- Tested application features for cross-browser compatibility and optimized performance.
- Engaged in iterative design processes, incorporating user feedback to enhance the application.
- Shared the project repository on GitHub to showcase coding skills and collaborative contributions.

GameOn: A Space for Gamers

Full-Stack Developer

- Created a collaborative platform for gamers to connect and share experiences.
- Applied modern frameworks to develop an interactive user interface.
- Utilized critical thinking skills to troubleshoot technical issues during development.
- Contributed to the project's coding standards and documentation for clarity and maintainability.
- Engaged with community feedback to improve platform functionality and user engagement.

SKILLS

JavaScript; TypeScript; Laravel; Next.js; Vue.js; Web Development; Frontend Frameworks; Collaborative Teamwork; Problem Solving; Attention to Detail; Time Management; Communication; Adaptability

EXPERIENCE

Outlier June 2025 - December 2025

Data Entry Intern

- Followed detailed instructions with precision to ensure data accuracy.
- Provided accurate data entry and management, contributing to effective information flow.
- Worked collaboratively within a team to enhance productivity and project outcomes.

- Demonstrated adaptability through quick learning of new processes and technologies.
- Contributed to team meetings by sharing insights to improve data handling practices.

Chocolate Ganash March 2022 - June 2023

Customer Service Assistant Cagayan de Oro City, Misamis Oriental

- Managed time effectively to ensure tasks were completed within tight deadlines.
- Delivered exceptional customer service by following instructions closely and meeting client expectations.
- Operated independently with minimal supervision, demonstrating reliability and trustworthiness.
- Collaborated with team members to streamline operations and enhance service delivery.
- Developed problem-solving skills by addressing customer inquiries and resolving issues efficiently.

Tech Hive Inc. January 2026 - Present

Web Developer Carmen, Cagayan De Oro City, Philippines

- Developed and maintained full-stack web applications for real-world clients as part of a professional internship.
- Built MCenter, a hospital management system for a large hospital in Dumaguete, contributing to both frontend and backend development.
- Developed Triibu Pakaras, a full-stack e-commerce web application for a clothing brand in Davao using Laravel, Vue.js, and Inertia.js
- Collaborated with the development team to deliver client-ready solutions within project timelines.
- Applied best practices in code quality, testing, and version control across multiple concurrent projects.
